Report Description

This report displays generated tons of RCRA hazardous waste aggregated according to the types of waste codes reported for a waste (i.e., characteristic, characteristic mixture, listed, listed mixture, or characteristic and listed mixture).

All generated quantities refer to the generated quantity in the National Biennial RCRA Hazardous Waste Report. Quantities are limited to wastes meeting the following criteria: the waste has been flagged for inclusion in the National Biennial RCRA Hazardous Waste Report, and the waste was generated at the handler (not storage only).
